## Credit Information

### Secondary Level Credit Requirements

The Saskatchewan Ministry of Education requires a minimum of 24 credits for graduation, at least 5 of which will be 30 level credits. Credit counts begin at the grade 10 level.

Compulsory courses are:

**Grade 10** · English A10, English B10, Social Studies 10, Native Studies 10 or History 10, Workplace 10 or Foundations Math 10, and Science 10.

**Grade 11** · English 20, one 20 level Math, one 20 level Science, and one 20 or 30 level Social Science.

**Grade 12** · English A30, English B30, History 30/Native Studies 30/Social Studies 30.

The Saskatchewan Ministry of Education also requires students to acquire:

- at least two (2) credits from the Arts Education / Practical & Applied Arts areas at the 10, 20, or 30 level.
- a Wellness or Physical Education credit at the 10, 20, or 30 level is required. Wellness 10 is the recommended credit.

Modified credits are not accepted for university entrance and may limit Saskatchewan Polytechnic entrance. Students may choose to take a modified course and then move back into a regular credit class (ex: Math 11 to Workplace or Foundations Math 10).

**Any class with the letter 'L' (a locally developed course) CANNOT be counted as a core requirement for graduation. It can, however, be included in the general credit count.**

#### **Elective Course Fees:**

Elective classes may have a fee. For information on specific class fees you may contact the office.

\* Class requires a pre-requisite  
\*\* Class requires teacher permission  
\*\*\* Fee required

*All elective classes are dependent upon adequate enrollment and facility space.*

## Technology Use Contract

In order to maintain our excellent computer/technology network at Balfour Collegiate it is necessary to communicate high expectations for their usage. We request the support of parents/guardians to assist us in maintaining responsible student use. Opportunities for all students to explore the world of information using computers, media retrieval, audio and video production are provided throughout the school year.

These opportunities enhance the skills necessary for effective research, writing, communicating and presenting. We encourage flexible use of the technology; however we have established specific business rules to protect the interests of all. The following technology use agreement is a mechanism whereby the students and their families have been informed of the access we will provide and also outlines the consequences should any violations occur. Please review this with your son/daughter and sign acknowledging your understanding. Should you have questions or require clarification, please call our school office.

The following rules are necessary to ensure that we can allocate our financial and human resources to provide exciting technical experiences. Violations of the following make it necessary for us to spend inordinate amounts of time securing, monitoring, repairing and re-programming. These rules are to ensure that all students have access to the appropriate technology.

### I WILL NOT without express instruction/permission from the supervising teacher:

1. Access email, messaging, chat, or forum sites.
2. Access another user's file and/or account.
3. Play games, or add games to any computer in the school.
4. Add or remove software, files or hardware (including cabling).
5. Add, modify or delete any system or application software file.
6. Alter any settings on electronic equipment including computer control panels, configuration settings, televisions, DVD, video and audio equipment.
7. Use portable storage devices.
8. Use peer to peer sharing of assignments.
9. Download or upload any files to or from the system or specific machines.
10. View, access or publish any files including copying or searching for information that does not meet the social standards of the school and community. (Profane, racial, sexual, or para-military applications, documents or images will not be tolerated.)

### I WILL NOT:

1. Bring or consume food or drinks in the technology or computer labs.
2. Mistreat any of the technology equipment in the school.
3. Take material from the internet or other online sources and present it as my own (plagiarize).
4. Try to disable or bypass security measures or restrictions put in place on school computers.

Violations to the above mentioned rules will result in suspension or complete removal of access to the technology depending on the severity or frequency of the infraction. I have read and understand the rules and the policy as outlined above. I agree that if I violate any of these rules I may forfeit the right to use technology at Balfour Collegiate. It should be further understood that if scheduled for a class which requires extensive use of technology I may have to drop or reschedule the course.
